Subject: My Hero

Dear Roy,

Thank you is such a small express how much we truly appreciate all the time and effort you put in to helping us with our computer problem. You not only offered your help when I mentioned it at lunch in passing, but you came over the same day and got my system up, running and faster than ever!

Since 1989 The Otis Smith KIDS Foundation has provided educational, recreational and cultural activities to underprivileged children in Northeast Florida and it takes a tremendous amount of support from individuals and corporate partners like yourself to keep going.

You are a shining example of both an individual and company that generously reached out a helping hand, and on behalf of the children we serve, thank you!

Please feel free to use this letter as a reference to anyone considering your company for Network Management or Business Development project.

Sincerely,

Camille Clement Gregg
Director of Development
